

Statement against Mulesing

Wilhelm Zuleeg GmbH, as a company that produces in Germany only, is also committed to its responsibility for environmentally conscious and social economic activity, also in its supply chain.

Animal welfare is very important to us and we are expressly against any form of mistreatment of animals or disregard for animal welfare. In particular, we consider mulesing without stunning to be cruelty to animals and are expressly against it, knowing full well that without mulesing, infestation with fly maggots would cause the sheep to die an agonizing death.

There are already alternatives - the so-called "Pain Relief Procedure", in which the operation is performed under anaesthetic by a certified expert.

However, the best way - to do without mulesing at all - must be the goal, and we expressly ask the relevant authorities in Australia to find alternatives as soon as possible.

We offer alternatives to our customers who buy wool fabrics from us, but the brands have to decide for themselves, because at the moment mulesing-free wool costs a bit more.
